

2020 Mental Health Guiding Coalition Members

As of March, 2020

We have assembled a highly engaged Mental Health Guiding Coalition. This includes employers that were part of the 2017-2018 Mental Health Learning Network, as well as new employers with a shared commitment to accelerating performance improvement in integrated mental health care. We have diversity in public and private employers of all sizes and from various industries. Several employers will wear “dual hats,” also representing health plans, care systems, and providers. All have pledged both time and financial support for the Guiding Coalition.
